

MANAGEMENT OF LIFTING OPERATIONS – 1 DAY

INTRODUCTION

This course is designed to provide delegates with the skills to carry out a Risk Assessment and complete a simple lifting plan for the lifting of trusses and RSJs for small construction projects.

WHO SHOULD ATTEND

This course is intended for Contracts Managers, Site Managers and Assistant Site Managers. Delegates must be aware of their company's procedures with regard to Lifting Operations.

COURSE DURATION

PFA Consulting offer this course over 1 day.

COURSE OVERVIEW

Upon completion of the course delegates should be able to understand:

- Legislation applicable to lifting operations on sites
- Examining recent accidents and discuss causation
- Contractual arrangements – contract lift or crane hire?
- The site and environmental constraints
- The selection of personnel and competent persons
- Selection and documentation checks
- Other equipment covered by lifting operations
- Legislation and British Standards relevant to lifting operations
- Examine recent prosecutions relevant to lifting operations
- Ground conditions, services, wind etc
- Selection and use of lifting equipment
- Duties of other personnel
- Examination and inspections – documentation checks
- Desk top exercise to develop a Lifting Plan
- Lorry loaders, forklift trucks and excavators
