

OCCUPATIONAL COSHH

INTRODUCTION

This course will teach delegates, who use substances hazardous to health at work, the hazards associated with these substances, the risks and controls involved and what to expect from COSHH assessments.

WHO SHOULD ATTEND

This course is for all employees in the workplace who manage, use, transport or store dangerous substances.

COURSE DURATION

PFA Consulting offer this course over half a day.

COURSE OVERVIEW

By the end of the course delegates will:

- Know what is meant by the term “substance hazardous to health” and be able to give examples.
- Know how hazardous substances can cause ill health and injury and be able to give examples.
- List COSHH warning signs and explain their meaning.
- List control measures for handling hazardous substances and an example of how one of the measures is applied in their work places.
- Demonstrate a general understanding of the value and purpose of conducting a COSHH assessment and what employees can expect of such assessments.
- Demonstrate an understanding of the main principles of the Control of Substances Hazardous to Health Regulations 2002.
